Art Unit: 1654

The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable over the prior art of record or any combination thereof. With respect to independent claim 1, the prior art of record does not teach a combination of irinotecan and cardiolipin in a liposomal composition, and therefore the formation of a complex between irinotecan and cardiolipin is not inherent in the prior art. Further, the prior art of record does not disclose that irinotecan can form a complex with cardiolipin, and therefore there is no motivation or suggestion to form a liposomal composition in which such a complex is present. With respect to independent claim 11, the prior art of record (and in particular the disclosure of the WO Patent Application 95/08986 at page 5, lines 14-17; page 6, lines 26-27; page 7, lines 6-7; and claims 1, 9, and 27) does not suggest the claimed cardiolipin-phosphatidylcholine- α -tocopherol combination at the claimed concentrations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey E. Russel at telephone number (571) 272-0969. The examiner can normally be reached on Monday-Thursday from 8:30 A.M. to 6:00 P.M. The examiner can also be reached on alternate Fridays.
